

Bey Lea Ambulatory Surgical Center Policy Patient's Rights

Patients at the Center have the following rights by state and Federal law and regulations. It is the responsibility of all employees to ensure that the patients' rights are complied with.

Patients are given a copy of the patients' rights prior to the procedure.

The Patient's rights are also posted in the Waiting and Holding Areas in the Center.

The patient or his/her representative, if applicable, has the right to:

- Be informed of these rights, as evidenced by the patient's written acknowledgement, or by documentation by staff in the medical record that the patient was offered a written copy of these rights and given a written or verbal explanation of these rights, in terms the patient representative could understand prior the procedure and prior to obtaining the patient's informed consent.
- The Center must protect and promote the exercise of such rights. The facility shall have a means to notify patients of any rules and regulations it has adopted governing patient conduct in the facility;
- Be informed, where applicable, of physician financial interests or ownership in the ambulatory surgical center facility. Disclosure of information must be in writing and furnished to the patient prior to the procedure and prior to obtaining the patient's informed consent.
- Be provided, in advance of the date of the procedure with information concerning its policies on advance directives, including a description of applicable State health and safety laws, and if requested, official State Advance Directive forms, prior to the procedure to obtaining the patient's informed consent.
- Documentation in a prominent part of the patient's current medical record, whether or not the individual has executed an advance directive.
- Be informed of services available in the facility, of the names and professional status of the personnel providing and/or responsible for the patient's care, and of fees and related charges, including the payment, fee, deposit, and refund policy of the facility and any charges for services not covered by sources of third party payment or not covered by the facility basic rate;
- Be informed if the facility has authorized other health care and educational institutions to participate in the patient's treatment. The patient also shall have a right to know the identity and function of these institutions, and to refuse to allow their participation in the patient's treatment and to charge physicians if he or she so wishes;
- Receive from the patient's physician(s) or clinical practitioner(s), in terms that the patient understands, an explanation of his or her complete medical/health condition or diagnosis, recommended treatment, treatment options, including the option of no treatment, risk(s) of treatment, and expected result(s)/outcome(s). This shall occur prior to any treatment being performed. If this information would be detrimental to the patient's health, or if the patient is not capable of understanding the information, the explanation shall be provided to the patient's next of kin or guardian. This release of information to the next of kin or guardian, along with the reason for not informing the patient directly, shall be documented in the patient's medical record;

- Receive as soon as possible, the services of a translator or interpreter if you need one to help you communicate with the Center's health care personnel free of charge;
- Make informed decisions regarding care.
- Participate in the planning of the patient's care and treatment, and to refuse medication and treatment. Such refusal shall be documented in the patient's medical record;
- Change primary or specialty physicians if other qualified physicians are available.
- Continuity of health care. The physician may not discontinue treatment of a patient as long as further treatment is medically indicated, without giving the patient sufficient opportunity to make alternative arrangements;
- Be included in experimental research only when the patient gives informed, written consent to such participation, or when a guardian gives such consent for an incompetent in accordance with law, rule and regulation. The patient may refuse to participate in experimental research, including the investigation of new drugs and medical devices;
- Voice grievances or recommend changes in policies and services to facility personnel, the governing authority and/ or outside representatives of the patient's choice either individually or as a group, and free from restraint, interference, coercion, discrimination, or reprisal;
- Use the grievance procedure to document the existence, submission, investigation, and disposition of a written or verbal grievance to the Center.
- Documentation by the Center of all alleged violation/grievances relating, but not limited to, mistreatment, neglect, verbal, mental, sexual, or physical abuse.
- Have all allegations reported to the person in authority of the Center.
- Have substantiated allegations reported to the state authority or the local authority, or both.
- Be provided with timeframes for review of the grievance and the provisions of a response.
- Voice grievances and to investigation of all grievances made regarding treatment or care that is (or fails to be) furnished.
- Written notice of the Centers decision which must contain the name of a facility contact person, the steps taken to investigate the grievance, the results of the grievance process, and the date the grievance process was completed.
- Exercise his/her rights without being subjected to discrimination or reprisal.
- Be fully informed about a treatment or procedure and the expected outcome before it is performed.
- Have the person appointed under State law to act on the patient's behalf if the patient is adjudged incompetent under applicable state health and safety laws by a court of proper jurisdiction
- Be free from mental and physical abuse, free from exploitation, and free from use of restraints unless they are authorized by a physician for a limited period of time to protect the patient or others from injury. Drugs and other medications shall not be used for discipline of patients or for convenience of facility personnel;
- Appropriate assessment and management of pain. To education, including education for the patient's significant others (if applicable), regarding pain and symptom management in the discharge planning process;
- To expect and receive appropriate assessment, management and treatment of pain as an integral component of the person's care.

- Information regarding credentials of healthcare professionals;
- Confidential treatment of information about the patient. Information in the patient's medical record shall not be released to anyone outside the facility without the patient's approval, unless another health care facility to which the patient was transferred requires the information, or unless the release of the information is needed by the New Jersey State Department of Health for statutorily authorized purposes. The facility may release data about the patient for studies containing aggregated statistics when the patient's identity is masked;
- Be treated with courtesy, consideration, respect and recognition of the patient's dignity, individuality, and right to privacy, including, but not limited to, auditory and visual privacy. The patient's privacy shall also be respected when facility personnel are discussing the patient;
- Privacy and security of individually identifiable health information;
- Receive care in a safe setting and be free from all forms of abuse or harassment.
- Not be required to perform work for the facility unless the work is part of the patient's treatment and is performed voluntarily by the patient. Such work shall be in accordance with local, State, and Federal laws and rules;
- Exercise civil and religious liberties, including the right to independent personal decisions. No religious beliefs or practices, or any attendance at religious services, shall be imposed upon any patient; and
- Not be discriminated against because of age, race, religion, sex, nationality, or ability to pay, or deprived of any constitutional, civil, and or legal rights solely because of receiving services from the facility.
- Have his/her rights exercised by the person appointed under State law to act on the patient's behalf.
- If a patient is adjudged incompetent under applicable State health and safety laws by a court of proper jurisdiction. If a State court has not adjudged a patient incompetent, any legal representative designated by the patient in accordance with State law may exercise the patient's rights to extent allowed by State law.
- Have representatives of accreditation that accurately reflects the Center,
- Be provided marketing or advertising that is not misleading regarding the competence and capabilities or the Center,
- The administrator shall provide all patients and/or their families upon request with the names, addresses, and telephone numbers of following offices where complaints may be lodged:
